Overboard on Security - '56 NAM Chief

NEW YORK - The man who will head the National Association of Manufacturers in 1958 said Thursday that the U.S. "has gone completely overboard on security."

"Everything has to be secured - jobs, wages, hours," said Cole G. Parker, NAM president-designate, "although the ultimate in security is jail, the slave labor camp and the salt mine."

He called on the 3,000 industrial leaders attending the convention to set an example for the country by insisting that their communities refuse to accept federal government help wherever possible.

"Stop Relying." "We have no right to criticize the farmer or the laborer for his reliance on government unless we stop doing it ourselves," he said.

"Let us stop relying on the great white father who has nothing to give us except what he took away from us in the first place."

"In the 41 years from 1913 to 1954 our taxes were multiplied 45 times - from two billion dollars a year to more than 90 billion. Even more importantly, Uncle Sam's bite of this total widened from 33 percent in 1913 to 75 percent last year."

"Biggest Meddler." Parker, a leading constitutional lawyer, served on President Eisenhower's commission on foreign economic policy. He said: "Uncle Sam is the biggest landowner, the biggest householder, the biggest employer, the biggest banker and insurance company, the biggest consumer, the biggest borrower and the biggest lender, the biggest defaulter and the biggest spender, the biggest sucker and the biggest meddler."

Parker, retired board chairman of Kimberly-Clark Corporation, Newark, N.J., will succeed Henry G. Ritter III, president of Thomas A. Edison, Inc., West Orange, N. J., in the NAM post.

Bonds

Issue will be used to finance sanitary sewer projects in Cedar Rapids. Only two have been specifically earmarked so far, officials said.

The bidding. Thursday's oral bidding featured 17 propositions for seven long-distance calls as the bidders reported progress and sought further home-office instructions on how to proceed.

These delays consumed 48 minutes of the 75 that passed from the time that bidding began until it concluded.

Dropping out in the face of Kosek's successful offer were: The Harris Trust and Savings Bank of Chicago, with the White-Phillips Company of Davenport and Iowa-Des Moines National Bank of Des Moines (last offer 2 1/2 percent with \$3,100 premium).

Ravencroft and Company of Cedar Rapids, with the Mercantile Trust Company of St. Louis (last offer 2 1/2 percent with a \$2,400 premium).

One sealed bid which arrived on time was opened at the end of oral competition. It came from the First National Bank of Chicago. The offer was for 2.30 percent with a premium of \$566, equivalent to about 2.29 percent interest.

Northern Trust's latecoming letter reached the council room 13 minutes after the legal deadline but before any oral bids had been submitted.

The special delivery airmail envelope was postmarked 2:30 p.m. Wednesday in Chicago, labeled "proposal for bonds" on the front. It was stamped as reaching the Cedar Rapids post office at about 8:15 a.m. Thursday.

Ravencroft Objects. When the letter arrived, City Attorney C. W. Garberson inquired as to whether the three oral bidders would object if the city considered it as valid in spite of the late delivery.

A Harris Trust representative shook his head. Glenn Ravencroft of Ravencroft and Company did object. "I don't believe it qualifies," he said. The same sort of thing happened several years ago, he noted, and two bids then did not count.

If he had turned in a sealed bid at the city clerk's office one minute late, Ravencroft remarked, his bid would not qualify either.

From Kosek came this statement: "Technically, it doesn't qualify, but on behalf of the city I believe it would be well to encourage."

And So They Lived Happily Ever After

The secret of happy marriage can be yours! Marriage experts - scientists, clergymen, judges and educators - have produced answers to many problems that beset married life.

How long should the courtship be? How important are children to marriage? What's the best way to avoid divorce?

The much-sought-after advice of these experts now is presented in one fascinating series of articles - "How To Be Happily Married" - starting Sunday in The Gazette.

Edwin Diamond of International News Service has talked to dozens of experts in all fields covering the problems of marriage. He tells what dating couples should look for in each other; how important children are to a happy marriage; and offers tips by these experts designed to make marriage a beautiful and lasting experience.

Don't miss "How to Be Happily Married" starting Sunday in The Cedar Rapids Gazette.

Never Opened. City Treasurer W. E. Miller emphasized that the letter had been postmarked Dec. 7.

"No change in your position, Glenn?" Attorney Garberson inquired. "No," Ravencroft replied. So the Northern Trust bid was never opened.

The last time a mail delivery lag threw a hitch into city council bond proceedings was on Monday, Jan. 9, 1950.

On that occasion the post office took 22 and 45 1/2 hours respectively over a weekend to deliver two airmail special delivery letters to the city hall.

Two New York bond buying firms were disqualified then, but as it turned out neither would have been the successful bidder.

The bonds sold Thursday were a general obligation issue, redeemable by a levy on all taxable property in Cedar Rapids over a period extending through Nov. 1, 1970.

Woman Run Over, Killed by Own Car

VAN NUYS, Calif. (AP) - When Mrs. Phyllis Loughlin's auto collided with another, she was thrown to the street. Her car spun around and ran over her. Police said she was killed by her own car, Joseph Dorfman, driver of the other car, was hospitalized with head injuries.

Iowa Industrial, Farm Utilization Study Set

DES MOINES (INS) - The Iowa Development Commission Thursday announced that an Iowa industrial and agriculture resources utilization study will be made.

The commission said the study is to be conducted by Fantus Area Research, Inc., of New York.

The field work will start in Iowa next February and will be completed by September. Purpose will be to develop a program which will enable the commission to accelerate the movement of industry to the state. It will cost \$30,000 and there will be four general steps:

1. Gather data from all known sources. 2. Field work within the state. 3. Interpretation, and 4. Recommendation for state action.

Delta Airlines Contract Given To Collins Radio

Collins Radio Company has been awarded a \$1.5 million contract to supply Delta Airlines with airborne weather radar installations and other communications equipment.

Delta Airlines of Atlanta is the first airline to purchase three new Collins products, a company spokesman said Thursday.

In addition to the radar installations, which will enable pilots to avoid turbulent storm areas, Delta has purchased products called ADR (automatic directional finding equipment), and Selcal, a unit that permits selective calling of planes by ground instruments.

This equipment will be installed on Delta's fleet of 11 DC-7s, six DC-6s and 20 Super Constair at the company's main overhaul base in Atlanta.

Factory installation of the equipment in new planes on order, 10 DC-7s and five Convair 440 Metropolitan, is also included in the contract.

A Collins spokesman said the order goes hand in hand with airline expansion resulting from Civil Aeronautics Board awarding of new routes from Atlanta to New York and from New Orleans to Houston.

Delta president, C. E. Woolson, has announced that the first radar-equipped Delta plane should be in operation by Jan. 1.

Collins will also install in Delta planes supplementary two-way voice communications units consisting of shortwave VHF air-borne transmitters and receivers, capable of providing 360 different frequencies, and long-range 20-channel HF transceivers.

Bacher Describes His Assailant as Extremely Calm

DAVENPORT (INS) - Henry Bacher, 59, Davenport druggist critically wounded by a knife-wielding bandit, has described his assailant as "unbelievably calm."

Bacher's wife, Lucille, 43, was snatched to death by the bandit who obtained only about \$90 from the Bacher pharmacy in a Nov. 28 daylight holdup.

Bacher, recovering from his wounds, was questioned at length for the first time by police Wednesday.

He selected several photographs from police files but was unable to make a positive identification of the bandit.

Police quoted Bacher as saying he could recall the man's features only momentarily then the memory faded out.

Officers began rounding up the persons whose photographs Bacher pulled from the files. The several men will be questioned about the robbery and possibly be given a lie detector test.

Scott County Attorney Martin Leir said Bacher also would be taken to Iowa City for a lie detector test as soon as possible, probably later this week.

Authorities indicated intention of subjecting "everyone connected with the case, without exception" to the lie tests.

One suspect cleared himself by taking the test last week. Mrs. Bacher's mother, Minnie Haddix of Burlington, suffered a heart attack at her home Wednesday and was taken to a Burlington hospital where her condition was described as fair.

Doctors said the attack probably was brought on by the shock and worry over the tragedy that befell her daughter.

Injuries Prove Fatal - Donald Winagar, 62, of Hartley, retired railroad employe, died Wednesday night in an accident near Sanborn.

Judge Overrules Defense Motion in Suit for \$70,000

An order over-ruling a motion and a claim in a government condemnation suit were filed Thursday in federal district court in Cedar Rapids.

Judge Graven's order overruled the defendants' motion to strike portions of the petition or require separate docketing of two claims in a \$70,000 damage suit against Merchants Motor Freight and two individuals.

He ruled that claims on behalf of two persons would normally be separate suits, but that since the two claims would be consolidated for trial anyway nothing was to be gained by requiring separate docketing. He also over-ruled the motion to strike.

The claim was filed by W. A. Drake, doing business as the W. A. Drake Company of Blairtown. The Drake company is owner of 188 twenty-five pound bags of flour the U.S. government has seized pending action on a claim that the flour is adulterated under meaning of the federal food, drug and cosmetic act.

The company's claim to the flour admits that the allegation of the government's petition is true and consents to entry of a judgment against the flour, but asks that it be permitted under supervision of a government agent to reclaim the flour, separately that portion which is adulterated and destroy only that portion.

The company's claim to the flour admits that the allegation of the government's petition is true and consents to entry of a judgment against the flour, but asks that it be permitted under supervision of a government agent to reclaim the flour, separately that portion which is adulterated and destroy only that portion.

Firm Presents Recordings to Schools in Linn

Recordings of an hour-long radio tribute to Sir Winston Churchill, "His Finest Hour," Thursday were presented by Allis-Chalmers Manufacturing Company to all high schools and colleges in Linn county.

The presentations were made at a noon luncheon in the Roosevelt hotel. In attendance were superintendents, principals and other representatives of the schools.

Broadcast of "His Finest Hour" an NBC radio production, was sponsored a year ago by Allis-Chalmers. It was heard in the U. S., Canada, Alaska, Hawaii, New Zealand and Australia.

Due to the number of requests for reproductions of the broadcast, Allis-Chalmers ordered 950 albums of the broadcast made. Each Linn county school received one of those albums.

Albums have also been presented to Sir Winston, Prime Minister Anthony Eden and France's war-time premier, Paul Reynaud.

Parking Changes, Installation of Stop Signs Made

Parking restrictions and stop sign installation at several locations drew approval Thursday from Cedar Rapids' city council. In resolutions presented by Safety Commissioner E. A. Prochaska, the council:

-Prohibited parking on the west side of First street SE from Fifth to Eighth avenue at all times.

-Prohibited parking on the west side of Tenth street SE for a 30-foot distance north of Seventh avenue while school signals are in operation.

-Authorized stop sign installations which will (1) halt north-bound traffic on Linden drive SE for Forest drive, and (2) stop traffic off Forest drive SE traveling east on Linden drive.

-Established 15-minute parking in front of the Arrow Printers at 119 E avenue NW for a 60-foot distance from 7 a.m. to 5 p.m. daily except Sundays and holidays.

-Approved a loading zone on the north side of Seventh avenue SE for a 30-foot distance west of Tenth street.

-Tillman (Continued from Page 1.)

-The Martin Oil Company in Cedar Rapids Dec. 6, \$28. It was only about 35 minutes after that last holdup when Tillman was arrested by Highway Patrolmen Gerald Kahler and Paul Gearhart on highway 218 near North Liberty. The patrolman stopped Tillman's car, a 1956 model, on the description furnished by the Martin station attendant, Harry Wascendorf, Jr., who saw the car drive away after he was held up.

When questioned by detectives after his arrest Tuesday, Tillman steadfastly denied connection with the robberies. Meanwhile he agreed to submit to a lie detector test.

Tillman's statement of confession said he used the same method of operation in each holdup. He wore a gray trenchcoat and gray cap, with a white handkerchief over his face. Each time he held one hand in a coat pocket as if holding a gun.

The arresting patrolmen found a gray coat and cap in Tillman's car, as well as a triangularly-folded handkerchief and a briar pipe in one coat pocket.

Tillman told officers he had only \$18 left. Most of the remainder of the loot, he said, has been spent for payments on his new car, which he purchased in Oskaloosa in late November.
