Significant Gain Near In Missile Development

WASHINGTON (AP) — The Atomic Energy Commission disclosed today the United States may be close to significant breakthroughs in enhancing the powers of American nuclear-tipped intercontinental missiles to penetrate an enemy's antimissile defenses.

It did so in a report saying also that:

- 1. America already leads the world in the "nuclear defense" field;
- 2. Improved nuclear weapons of various types including "demonstration munitions" such as atomic land mines were added last year to the stockpile; and
- 3. The nation's nuclear weapons are even now working toward developing even more advanced types.

The AEC's annual report to Congress did not specifically describe the latter. But apparently they entail still further progress toward assuring that American missiles — launched after an attack on the United States — would at least partially be able to foil,

History Courses Draw Criticism

DES MOINES (AP)—Former National Commander of the American Legion Donald Johnson of West ranch has lashed out at the teaching of history in schools.

Speaking at the American Legion Auxiliary Mid-Winter meeting here Sunday, Johnson said, "A spattering of watered-down history disguised as social science doesn't seem to be getting the job done in our schools, and it may be that at this doorstep we could lay a great deal of the blame for the current round of student demonstrations in opposition to the firm stand now being taken...in Viet Nam. Added Johnson: 'I venture to say that a concrete background in American history is the only remedy we need to change the climate of modern America from one of skepticism, doubt and fear to a climate of resolution, faith, hope and courage.'

Federal Policy, Weather Are February Question Marks

By SAM DAWSON  
AP Business News Analyst  
NEW YORK (AP) — This February will start out with two strikes on it — and almost every February is a trying enough month for production, distribution and retail trade. Many businessmen would be perfectly willing just to skip it.

Weather often snarls industry and transportation and plays hob with store traffic. Retail trade usually is at a crawl anyway, being in the doldrums between the January clearance sales and the spring and Easter shopping promotions.

This February could be even more of a question mark — and a pain.

For one thing, there's the uncertainty of what will happen in Viet Nam — and what that will do to government programs at home and to private business and consumer plans.

For another, there's the doubt raised by the new federal spending policies — more for both military and civilian programs — without any real certainty of steering clear of an inflation which could send the already fast rising cost of living on a real foot.

Then there's the untested new

decoy and penetrate enemy countermeasures — including their own missiles, and ground-based electronic detection devices.

Referring to underground weapons tests in general, the AEC said, the past year had marked a continuance of "an aggressive" program of that nature undertaken when the limited test ban treaty — outlawing all but underground tests — went into effect in 1963.

See Foul Play In Iowa Death

DES MOINES (AP) — There were indications today that foul play was involved in the death of Donald Nervig, 52, Des Moines automotive shop owner.

Polk County Sheriff Wilbur Hildreth said Sunday that County Medical Examiner, Dr. Leo Luka told him that Nervig sustained a severe blow.

Hildreth said Dr. Luka has not released his final report because he wants to make some more tests on tissues taken from the body.

Nervig disappeared Dec. 14. His body was found last week in a gully north of here.

Donald Leroy Kyger, 26, of Des Moines, was the last person known to have seen Nervig alive, police said.

Kyger told officers he met Nervig at a downtown Des Moines bar. He said they had several drinks, then drove to a point near the city limits where they got into an argument and Nervig got out of the car.

Sen. Miller Heads for U.S.

SEOUL AP — U. S. Sen. Jack Miller, R-Iowa, left by air today for the United States after a three-day visit to Korea on the last leg of his Asian tour.

The senator paid a courtesy call on South Korean President Chung Hee Park at the presidential mansion this morning. He also attended a luncheon given by Premier Chung Il-Kwon shortly before his departure.

Tuberculin Testing Set In Schools of Muscatine

Plans are being made to give the tuberculin test to students and personnel of Muscatine County schools.

The purpose of the program is to find persons who react to the tuberculin test and to search for unsuspected active tuberculosis among the members of the reactor's household and close associates. A positive reaction to the test does not necessarily mean active tuberculosis is present; however, it indicates that some germs have entered the body at one time or another.

These germs came from someone who has active tuberculosis.

The testing of the students and school personnel is the first phase of the program. If a child is a reactor to the test, other members of the family and close associates will be asked to have a tuberculin test in an effort to discover the course of infection.

All positive reactors will be given a chest x-ray.

There is no charge for this program. Christmas Seal donations support this work.

Sponsoring Agencies are: Muscatine County Tuberculosis and Health Association, Muscatine County Medical Society, Iowa Tuberculosis and Health Association and the State Department of Health.

Mrs. Earl Gantenbein, City Public School Health Nurse will give the tests in Muscatine Public Schools. Mrs. Elizabeth Healey and Mrs. Henry Guck will give the tests at St. Mathias and Hayes High School. Mrs. Wendell Mills will give the tests at St. Marys School. Mrs. Ed Holtz will test the Area Six Schools. Mrs. Bevlyn Lindle will give the tests at West Liberty and Nichols Schools. Mrs. Annette Freyermluth will test the Wilton Junction School. Mrs. Earl Jones Community Service Chairman for the Muscatine County Tuberculosis and Health Association has organized the Tuberculin Testing Program.

The Tuberculin Testing Schedule is as follows: Monday, Feb. 7, Morning — High School Central Jr. High,

Monday, Feb. 14, Afternoon — West Jr. High and McKinley. Tuesday, Feb. 8, Morning — Jefferson and Washington. Tuesday Feb. 8, Afternoon — Lincoln and Madison. Monday, Feb. 14, Morning — Garfield and Franklin. Monday, Feb. 1, Afternoon —

Arrest Clears Iowa Robberies

CEDAR RAPIDS (AP) — Police said today the arrest of a young Cedar Rapids man late Sunday night apparently has cleared up a number of robbery cases in eastern Iowa.

Officers said LeRoy W. Crawford, 22, was arrested in Marion shortly after a holdup at a service station.

Crawford admitted, said police, four holdups here and two more at Iowa City.

They said he admitted being involved in a robbery at the YMCA last October and at a laundry and two service stations here in January.

Police said he also admitted robbing the Peoples Grocery Store and Helmers' Grocery Store in Iowa City.

New Discovery Now Makes It Possible to Shrink And Heal Hemorrhoids Without Surgery

Stops Itch — Relieves Pain In Minutes  
New York, N. Y. (Special): A world-famous institute has discovered a new substance which has the astonishing ability to shrink hemorrhoids without surgery. The sufferer first notices almost unbelievable relief in minutes from itching, burning and pain. Then this substance speeds up healing of the injured tissues all while it quickly reduces painful swelling. Tests conducted under a doctor's observations proved this so — even in cases of 10 to 20 years' standing. The secret is the new healing substance (Bio-Dyne®) — now offered in both ointment or suppository form called Preparation H®. In addition to actually shrinking piles — Preparation H lubricates and makes bowel movements less painful. It helps to prevent infection (a principal cause of hemorrhoids). Only Preparation H contains this magic new substance which quickly helps heal injured cells back to normal and stimulates regrowth of healthy tissue again. Just ask for Preparation H Ointment or Preparation H Suppositories (easier to use away from home). Available at all drug counters.
