Find Nervig's Bag and Money

DES MOINES (AP)—A sheriff's deputy rechecking the area where the body of Donald Amos Nervig, 52, was found Jan. 26 has turned up a bag containing \$296 in checks and \$26 in cash identified as belonging to Nervig.

Deputy Polk County Sheriff Eldon Lewis said Sunday he decided to search the area again after a couple of days of mild weather had thinned the snow cover.

Officers said finding the bag cast doubt on the theory that robbery was the motive in Nervig's death.

Nervig had been missing since Dec. 14. His body was found more than six weeks later in a wooded gully five miles north of Des Moines.

Dr. Leo Luka, Polk County medical examiner, said Nervig died of a blow on the head from a heavy blunt instrument.

Also found were a pair of glasses belonging to Nervig and a partially smoked cigar believed to have been his.

Hoffa Calls for Union Move for Massive Strikes

DETROIT (AP)—Teamsters Union President James R. Hoffa has advocated a common expiration date for all union contracts in each American city and for union contracts in allied industries across the nation.

Hoffa told the 13-state Teamsters Central Conference in Detroit Saturday that such a policy has been discussed with other major unions.

He said the move would make possible massive strikes of the kind that can take place in other nations.

Hoffa did not suggest that every union contract in the United States expire on one date. He also did not specify where he would draw the line on which contracts he felt should not expire on a common date.

However, Hoffa said concerted action will be necessary because of recent decisions of the National Labor Relations Board and the U.S. Supreme Court.

Common expiration dates would allow unions to get away from the danger of being charged with secondary boycotts and would make strikes more effective, he added.

Mansfield Ill With Influenza

WASHINGTON (AP)—Senate Democratic Leader Mike Mansfield of Montana was reported improving today in Bethesda, Md., Naval Hospital from an attack of flu.

Senate Republican Leader Everett M. Dirksen of Illinois told reporters he expects Mansfield to return to the Senate Tuesday in time for a vote on his motion to cut off debate on the union shop bill.

Mortimer and Bufford: Two Unlikely Troopers

By TOM TIEDE

Newspaper Enterprise Assn. BIEN HOA, Viet Nam — If Private Mortimer Reed is awarded a Combat Infantryman's Badge in the next few months it may be indication the military is going to the dogs.

Mort is a wire-haired terrier. On the other paw, if Pfc. Bufford L. Monkey is, as expected, promoted to Sepc. 4 soon, which could mean the Army is being taken over by a bunch of apes. You guessed it. Monkey's a monkey.

Mortimer and Bufford are members of the 173rd Airborne Infantry and except for the fact they both have fleas, they're not so much different from the run-of-the-war soldiers here.

Bufford, for example, likes to beat the heat of Southeast Asia with a bourbon on the rocks or a beer in the bunk. Says owner Charles Rector of Mullen, Neb.: "She simply drinks like —."

"But," someone inquired, "doesn't it make her sick?" "Now, just drunk now and then."

"And you still condone it?" "Look, she doesn't question my drinking and I don't her's."

Although the monkey has a masculine moniker, Rector refers to Bufford as a she-male. He explains this contradiction as an original error never corrected by subsequent facts.

But, he, she or it, Bufford's one of the boys. She sleeps, eats and sips with the troops and on occasion even jumps with them from airplanes. "We call her the parachuting primate," Rector says. "But isn't she frightened in a plane?" "Yeah, her eyes get big as dollars."

"And what does she do when she jumps out?" "She falls, naturally, like everybody else."

Unlike Rector's remarkable anthropoid, Pvt. Mort Reed has never been pushed out of a plane. The shaggy, bone-picking pooch leans more to chasing Viet Cong on combat patrols.

Mort's owner, Supply Sgt. Frank Reed of Akron, Ohio, claims the pup has seen more front-line action than John Wayne.

Says Reed: "He's always going out to the war."

"And what's he do when the shooting starts?" "He runs like the devil."

"Which way?" "Whichever way the bullets ain't coming from."

Reed bought his khaki-colored K-9 in the Philippines and smuggled him into the combat zone. He's now the only genuine dog face in Viet Nam and has so fit into the life of a soldier the rumor is he once bit his first sergeant in the, uh, ankle.

Many dispute that possibility, however. Bufford's taste, they argue, runs more to officers.

In any event the GI's think Mort is the doggondest. In six months they've had only one serious problem with him, but after he was tentbroken everything worked out fine.

Such is the affection for both Bufford and Mort, in fact, that 173rd people have submitted regulation papers to get the Army animals the distinctions they deserve — Bufford another stripe and a Combat Infantryman's Badge for the dog.

The guys insist Mort has enough courage for the medal. And Bufford has more than enough intelligence for the promotion.

PRODUCED THE EVIDENCE MT. STERLING, Ky. (AP)—Strange things have happened since Mt. Sterling adopted a law requiring a \$7 windshield sticker for autos. When residents change cars, they pay only \$1 for a new sticker if they can produce a portion of the old one. Recently, a woman showed up at City Hall carrying a large section of windshield to which the sticker was affixed. Her old car had been wrecked and she couldn't remove the sticker, so brought along the whole works.

New York Stock Market

NEW YORK (AP)—Steels, autos, airlines and electronics were gainers in an advancing stock market early this afternoon. Trading was fairly active.

Steels benefited from a report of rising orders for the metal and expectations that the industry would enjoy a big first quarter.

The over-all list seemed to respond to the opinion reported from the National Association of Purchasing Agents that inflation looms as a more serious threat now than in many years.

The market was up a little at the opening, then moved solidly higher despite laggards here and there.

The Associated Press average of 60 stocks at noon was up .7 at 366.3 with industrials up 1.1, rails up .3 and utilities up .3.

The Dow Jones industrial average at noon was up 4.18 at 990.53.

Lorillard was delayed in opening, finally spurring 2 1/4 to 50 1/2 on an opening block of 40,000 shares. It extended the gain to more than 3 in later dealings. Rumors were denied that the company had a new type filter for cigarettes.

Prices were generally higher in heavy trading on the American Stock Exchange. Corporate and U.S. Treasury bonds were mostly unchanged in light dealings.

'65 Fire Loss Set at \$27,860

One major fire a year ago accounted for nearly all the \$27,860.79 fire damage reported here in 1965, Harold H. Grundmeier, fire chief, said Monday.

The Sheker Shoe Store fire here Jan. 30, 1965 resulted in estimated damage of \$25,046.62 to the building and contents, Grundmeier said.

Fire losses within the city limits amounted to an estimated \$13,766.62 to buildings and \$14,094.17 to contents within the buildings.

The 30-member volunteer fire department answered a total of 50 calls within the city during the 12 month period. Firemen were called outside the city limits 19 times.

The total number of calls was down six from the 1964 figure of 75.

The breakdown on calls showed 11 to dwelling places, eight to business establishments, 16 for car fires, 10 grass fires, and four rescue unit calls involving use of the resuscitator, Grundmeier said.

2 Escape as Jet Crashes

SIOUX CITY (AP)—The two-man crew of a twin-jet F101 fighter plane from Glasgow, Mont., Air Force Base parachuted to safety Sunday after they were unable to land their damaged plane.

The aircraft crashed and burned in a wooded Missouri River bluff area about 10 miles south of the Sioux City airport tower on the Nebraska side of the river.

A Sioux City Air Force Base spokesman identified the crew as 1st Lt. William J. Ball, the pilot, of Lincoln, Neb., and Capt. Charles A. Davis, the radarman from Santa Monica, Calif. They were members of the 13th Fighter-Interceptor Squadron at Glasgow AFB. The unit is a part of the Air Defense Command.

The spokesman said the plane was on a routine training flight and "flew an engine" on take-off from Offutt Air Force Base near Omaha, Neb. The pilot headed here to attempt a landing.

However, the spokesman said, a mechanical failure in the landing gear prevented a safe landing and the crew bailed out. Neither man was injured.

THE ANSWER'S SIMPLE ROME (AP)—Repairmen who went out to learn why telephone service between Rome and Formia had broken down soon found the answer. Thieves had made off with more than 500 yards of the telephone cable.

Girl Killed in Shotgun Accident

FAIRFIELD (AP) — A shotgun, in its fabric case, was dropped accidentally Sunday and it fired, killing Kathrynne Cook, daughter of Mr. and Mrs. James Cook of Fairfield.

Authorities said the girl's cousin, Terry Cook, 10, had taken the cased .410 gauge gun from a truck as the children were helping Terry's parents, Mr. and Mrs. Charles Neil, move into a house here.

Neil said he thought the gun was unloaded. He said it had not been used since the pheasant season ended.
