#### ON THE HOUSE

**VP** Newsfeatures Whether a workshop is a set to incilitate the copy offst is Sparein Color

Risthen a met for distance govice do it yourselfer his first experience with a power tool Because it is light, easy to han le and highly effective, the drill has retained its popularity toroughout the years, becoming .. special favorite in the 1940s and never relinquishing its role as the best selling electric tool

The drill is basically what its name indicates—a tool for crilling holes in wood metal and the instance of accessories that can be attached to a portable drill crows larger, until today there are very few tasks that cannot Te made easier with these ad-citions. In fact, unless you have Lean to a well stocked store that fells such accessomes within the igst rew months, you are not bkely to be up-to-date on the vide variety that is available. In namy cases, heavy duty wood-porking and metal-cutting operations are best done with special tools made for those

purposes, but the drill, with the

holes in wood, especially hard-wood, to receive screws. The pilot holes should be slightly smaller than the diameters of the screws. The same procedure should be followed with nails to prevent splitting in hardwood Before each hole is drilled, a small indentation should be thade with an awl. When the bit s placed into this hole and the notor turned on, it will not wanfer and mar the surface of the cood Pressure on the drill hould be firm but not heavy To prevent splintering as the bit comes out the other side, back ip the material with a piece of scrap wood

Quarter inch drills will handle nost household projects, but if ou do a lot of work with the neavy drill accessories, a larger size may be required In choosing a drill, tell the dealer what the drill will be used for most of the time. He will advise you which size is preferable and whether you will need a speed educer for the more difficult mbs Incidentally, in buying an electric drill, be sure it has the proper "feel" or you may find it - reported

awkward later when using it for

When a drill is designated as a intermely size, it does not or to the deminister of the hole to an be drilled with it, but to maximum size of the shark can be inserted in the k. The same thing holds

true for larger-sized drills. This means, for example, you can drill a half-inch hole or even larger with a quarter-inch drill provided the bit shank is a quarter-inch or less. Some drill chucks are tightened by hand, some with a socket or Allen wrench and some with a geared key. When the chuck is tightened with a tool, attach that tool to the power cord of the drill so that it will always be handy when you need it

Accessories and attachments permit a drill to be used for sanding, driving screws, countersinking, filing, polishing, mix-ing paint, sawing, sharpening, planing, routing and dozens of

Hydro has placed a \$23 million order with Dominion Bridge Co by used on a hydro transmission. line between Winnipeg and Min-

Sprague, Man. The line is scheduled to go into service by

 As many as six workers ex-posed to a chemical used in making synthetic rubber in the 1950s may have died from a rare form of cancer, it has been to resort to violence

It's reception was somewhat chillier than an earlier trip, when he was merely "getting to know" the people of his state

hnow" the people of his state.

"I just got the feeling that he wanted to tap us on the back and say, 'Be good,'" said Hichard Koska of rural Belgrade.

Koska was angered that Perpich declined to attend a group

meeting with some farmers last week "Everyone wanted to have some input in it," Koska

Gov. Perpich urges not

said. Others, like Alce Fuchs of rural Belgrade, said they had to give Perpich credit for being concerned about violence when

the fields to begin surveying.

Perpich said two points he wanted to get across were that violence must be prevented and that a science court to study health issues is still a viable

power-line construction would continue during court proceedings and that the findings of the court would not be binding

Surveyors are expected to return to work early next week. The way was cleared for work to resume by a Sept. 30 decision by the Minnesota Supreme Court, which ruled in favor of two power companies.

The 400-kilovolt line, to be

built by United Power Associ-ation, Elk River, and Cooperative Power Association, Edina, will run from North Dakota to lowa-hvestock farmers who re-port a 40 per cent reduction in bringing in power for redistri-bution to rural electric cooperathe Minneapolis-St. Paul area,

Perpich said he wanted to explain to the people opposing the line that the surveyors are not the decision makers regarding

"They are just people working for a living," Perpich said. The governor said he would
