Note 1: The list is not an exhaustive list of the cold cases in the various counties, but a list of the ones that the unit is investigating. Instead they are cases, either the Department of Criminal Investigation (DCI) has participated in the investigation or that DCI has worked with a local agency to post information about the case on its website in the hopes of getting new information from the public.

Note 2: For the most part, the information can be credited to the Iowa Department of Criminal Investigation.
